UCSI University®

UnTechEd - UCSI TechFusion Program: Malaysia 2025 Global Immersion Program

for students from Engineering &
Technology, CSE/IT Department

**"Securing the Future:
AI-Driven Innovations and Ethical
Cybersecurity Frameworks"**

Host Country: Kuala Lumpur, Malaysia

Hosting University Partner: UCSI University, Kuala Lumpur, Malaysia

Time Frame : 22nd to 26th September, 2025

Duration: 5 Days / 4 Nights

Program Overview

The Malaysia Global Immersion Program offers participants an unparalleled opportunity to delve into the dynamic fields of Artificial Intelligence and Cybersecurity through a blend of academic sessions, industry visits, and cultural explorations. The program is designed to equip students with cutting-edge knowledge and practical insights on topics such as AI-Driven Cybersecurity Tools, automating threat detection and response systems, and developing ethical frameworks for autonomous systems. Participants will also explore techniques for ensuring data privacy in compliance with global regulations like GDPR, address cybersecurity challenges in autonomous systems such as self-driving cars and drones, and analyze AI governance and cybersecurity policies shaping the future of technology.

Complementing these advanced learning sessions, the program includes visits to leading tech organizations in Malaysia to witness real-world applications of these technologies, along with curated cultural experiences that offer a deeper understanding of Malaysia's vibrant heritage and traditions. This holistic approach ensures participants gain not just technical expertise, but also a global perspective, making this immersion program a transformative educational journey.

WORLD'S TOP 1% #265 AND RISING

ONE OF ASIA'S TOP PRIVATE UNIVERSITIES

QS WORLD UNIVERSITY RANKINGS 2025

Program Benefit

1. Cutting-Edge Knowledge

Gain in-depth understanding of advanced topics in AI and Cybersecurity, including AI-Driven Cybersecurity Tools, ethical decision-making in AI, and data privacy techniques.

2. Real-World Exposure

Participate in industry visits to leading tech organizations, offering insights into the practical applications of AI and Cybersecurity in various sectors.

3. Global Perspective

Develop a global outlook through exposure to Malaysia's multicultural environment and the intersection of technology and cultural diversity.

4. Skill Development

Enhance critical skills such as problem-solving, ethical decision-making, and compliance with global standards like GDPR.

5. Networking Opportunities

Connect with industry professionals, academic experts, and peers to build valuable networks for future career growth.

6. Career Advantage

Receive certification recognizing your participation in an international immersion program, boosting your résumé and career prospects in AI and Cybersecurity fields.

7. Cultural Enrichment

Engage in cultural visits and activities to experience Malaysia's heritage, fostering personal growth and cross-cultural understanding.

This program offers a comprehensive blend of academic learning, professional exposure, and cultural immersion, providing students with a transformative and enriching experience.

Program Topics:

AI-Driven Cybersecurity Tools

Automating threat identification and response.

AI in Ethical Decision-Making

Developing moral frameworks for autonomous systems..

Data Privacy in AI Applications

Techniques to ensure compliance with regulations like GDPR.

AI Governance and Cybersecurity Regulations

Policy frameworks for AI and cybersecurity co-development.

Cybersecurity Challenges in Autonomous Systems

Securing self-driving cars and drones.

Proposed Itinerary for Malaysia

Day & Time	Activity
Day 1, Mon	
6:00 AM - 9:00 AM	Arrival at Kuala Lumpur Airport (depending on Flights)
10:00 AM	Group Pick up from the Airport
12:00 PM - 1:00 PM	Check-in at Hotel
1:00 PM - 2:00 PM	Lunch
3:00 PM – 6:00 PM	Rest & Relax
